

FOR IMMEDIATE RELEASE

RIIFO Introduces PEX-a Tubing Product Line

Buford, GA March 15, 2021 -

RIIFO (pronounced “rye-fo”), a wholly-owned subsidiary of Rifeng Enterprise Group Co., Ltd. is excited to announce the launch of its PEX-a tubing product line including barrier PEX-a. RIIFO’s PEX-a tubing has been NSF certified and is a valuable addition to the RIIFO portfolio of products. Advantages of RIIFO’s PEX-a include: PPI listed raw materials, NSF certification, more flexible than other PEX, 25 year warranty. In addition, RIIFO boasts cutting-edge facilities, advanced quality control system, and top-notch research and development.

The announcement of offering PEX-a to the North American market is a significant step for RIIFO and its customers. Over the past two decades, the company has proven itself a very reliable PEX-b supplier with zero-complaint product quality, exceptional customer service, and innovative research and technology. This new offering of PEX-a will further solidify RIIFO’s reputation with customers located throughout the USA and Canada. RIIFO will continue to deliver it world class customer experience while meeting the evolving needs of the plumbing and radiant heating industry.

We’re excited to launch our new PEX-a into the market this year,” says Dennis Harvey, President. Harvey goes on to say “We heard our customers and realize the need for this product line in our industry. This addition broadens our overall product portfolio making RIIFO a strong competitor in the plumbing industry.”

About RIIFO

RIIFO provides a range of products including potable PEX-b tubing, barrier PEX-b tubing, PEX-a tubing, barrier PEX-a tubing, PEX-AL-PEX tubing, lead-free brass crimp fittings, poly alloy crimp fittings, lead-free brass press fittings, stainless steel heating/cooling manifolds, tools, and accessories.
